2024-2025**

# Introduction

Tic-tac-toe game system is a two-player game where players take turns marking an X or an O on a 3x3 grid. The first player to get three marks in a row, either horizontally, vertically, or diagonally, wins.

# USES

- A Tic Tac Toe game system can be used to teach the concepts of good sportsmanship and artificial intelligence
  - It can also use to develop logic and problem-solving skills.
  - It is also use to encourages strategic thinking and planning ahead, which can enhance problem-solving abilities.
- 

# OUTPUT

```
C:\Users\INTEL\Documents\123.exe
Welcome to Tic-Tac-Toe!
| | |
| | |
| | |
Player X, enter row (0-2) and column (0-2): 1 1
| | |
| X |
| | |
| | |
Player O, enter row (0-2) and column (0-2): 0 0
| O |
| X |
| | |
Player X, enter row (0-2) and column (0-2): 1 0
| O |
| X | X |
| | |
Player O, enter row (0-2) and column (0-2): 2 2
| O |
| X | X |
| | O |
Player X, enter row (0-2) and column (0-2): 1 2
| O |
| X | X | X |
| | O |
Player X wins!
```

C:\Users\INTEL\Documents\123.exe

```
| o | | |  
| x | x | |  
| | | o |
```

Player X, enter row (0-2) and column (0-2): 1 2

```
| o | | |  
| x | x | x |  
| | | o |
```

Player X wins!

```
| o | | |  
| x | x | x |  
| | | o |
```

# CONCLUSION

Conclusion of this project is Tic Tac Toe is not only a fun and simple game but also a great way to introduce concepts of game design, user interaction, and basic artificial intelligence if you choose to implement a computer opponent.

# THANK YOU
